Governance Model – Why?

Facilitate growth from Open Source Software => Open Source Ecosystem

Clear decision-making
process

A sustainable revenue
generation model

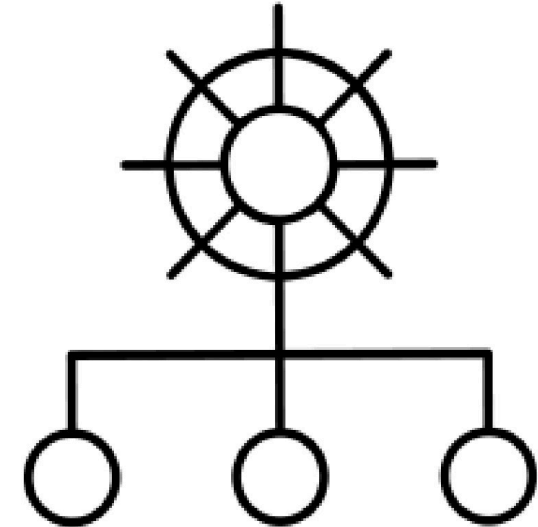

Better guidance to
community members who
want to get involved

Style of Governance

Working with NumFOCUS to develop governance model

NumFOCUS recommends that Open OnDemand adopt the Steering Council Governance Model

Basic Structure

Steering Council

Core Team:

Alan Chalker

Julie Ma

David Hudak

Justin Costa

Emily Moffat Sadeghi

Working Group Leads:

Technical Lead

Community Engagement Lead

Working Groups

Technical Committee

User Guide

Contributor Guide

Community Engagement

Advisory Groups

Advisory Council

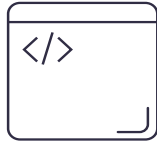

Emeritus Steering Council

Guiding Principles

Core foundations of Open OnDemand governance model are:

Openness & Transparency

Active Contributions

Institutional Neutrality

Our governance model is a living framework that will be flexible and adaptable as project needs evolve.

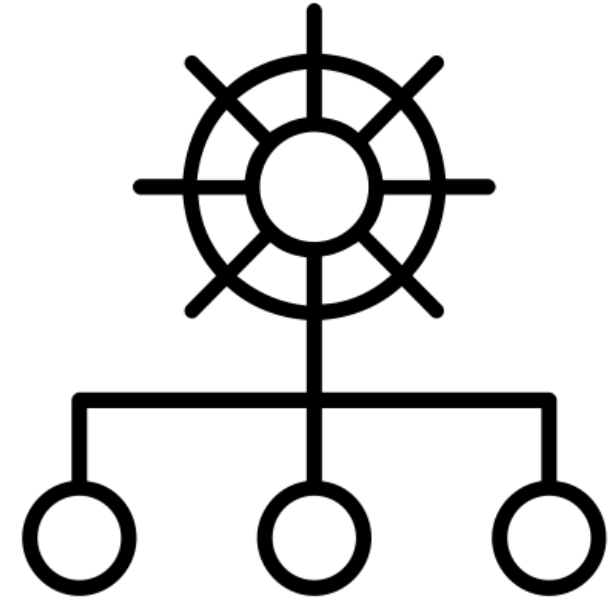

Steering Council

Overall role is to ensure the long-term well-being of the project, both technically and as a community

Steering Council is responsible for all dimensions of the Project (including, but not limited to, software, legal, financial, community, operations)

Steering Council members actively work to carry out the Open onDemand project's mission and to support operations of the other governance bodies

Membership is by invitation only for the inaugural Council

Working Groups

Technical Committee

Oversees software decisions, collaborates with Dev Rel PM to provide guidance on pull requests, bug fixes, releases and updates. Nominates a Steering Council representative.

Contributor Guide

Maintains the Contributor Guide to provide clear, well-defined guidelines for contributing code and documentation to the project.

User Documentation

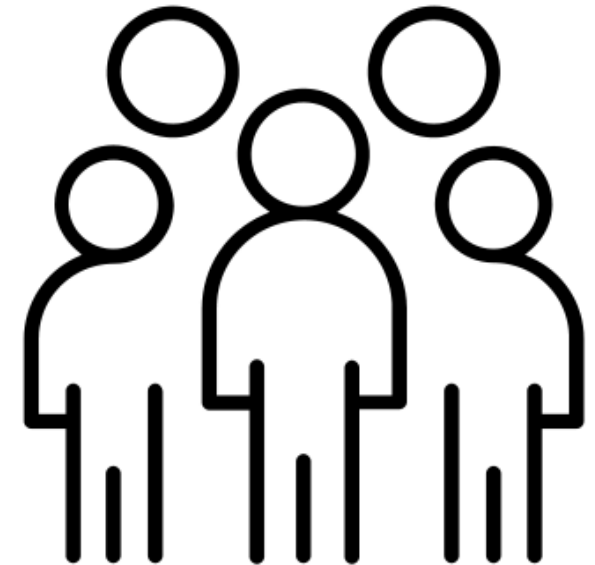

Writes and maintains documentation to ensure the system admin community can install and the user community can run Open OnDemand quickly and easily.

Community Engagement

Builds the Open OnDemand community through affinity groups, community calls, events, support and partnerships. Nominates a Steering Council representative.

Governance Benefits

- Clearly defines roles and responsibilities
- Incorporates different perspectives
- Distributes leadership to prevent burnout
- Bridges the gap between leadership and development
- Leverages members' unique skills for progress
- Ideal for large-scale projects

Working Group Brainstorming Sessions

Today immediately following Closing Remarks!

Working Session Format

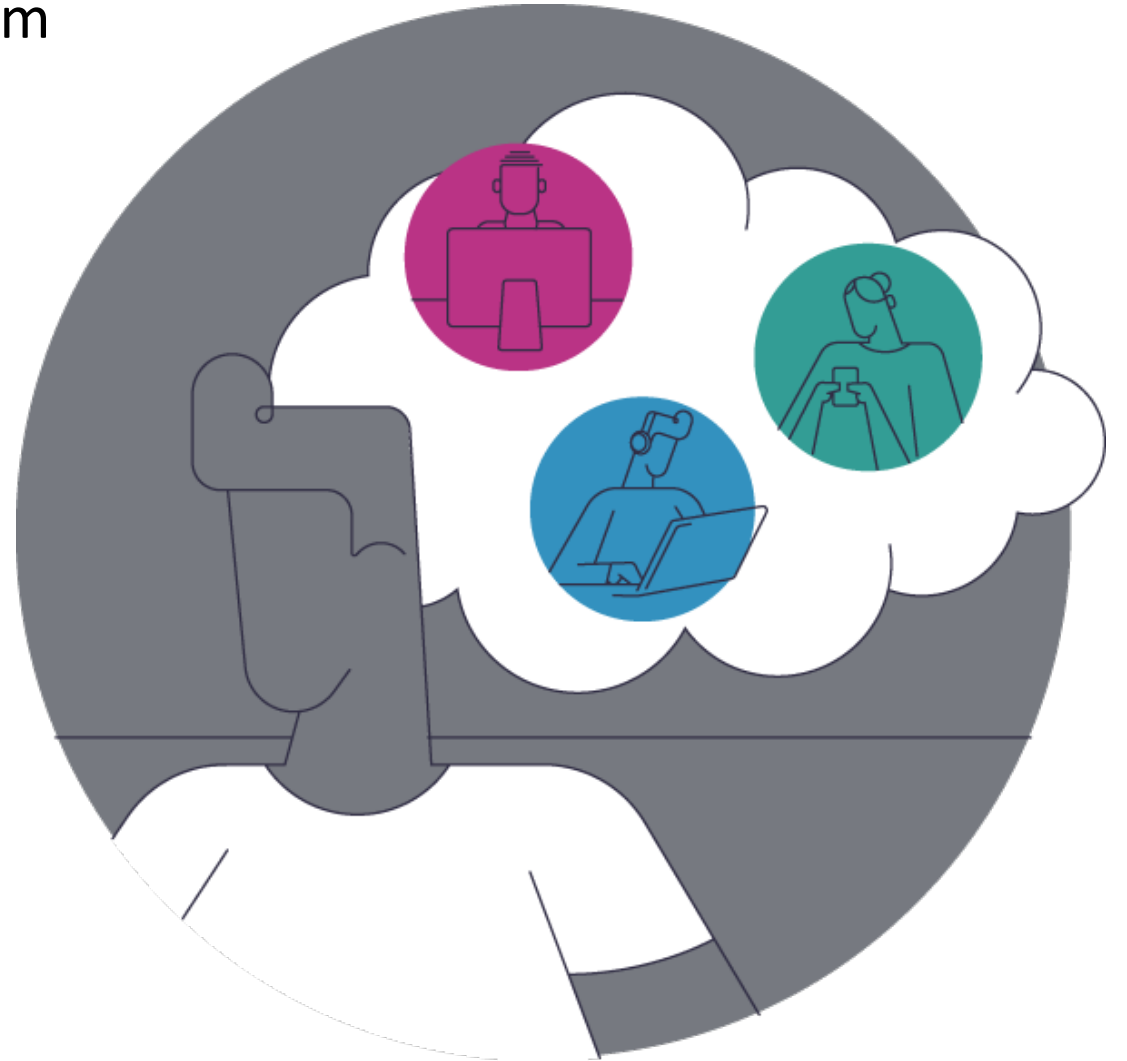

Brainstorming on key focus areas each of these committees.
Sorting and prioritization.

Everyone is welcome! You do NOT need to be on the committee to contribute

Interested in joining a committee? Let us know by filling out this form

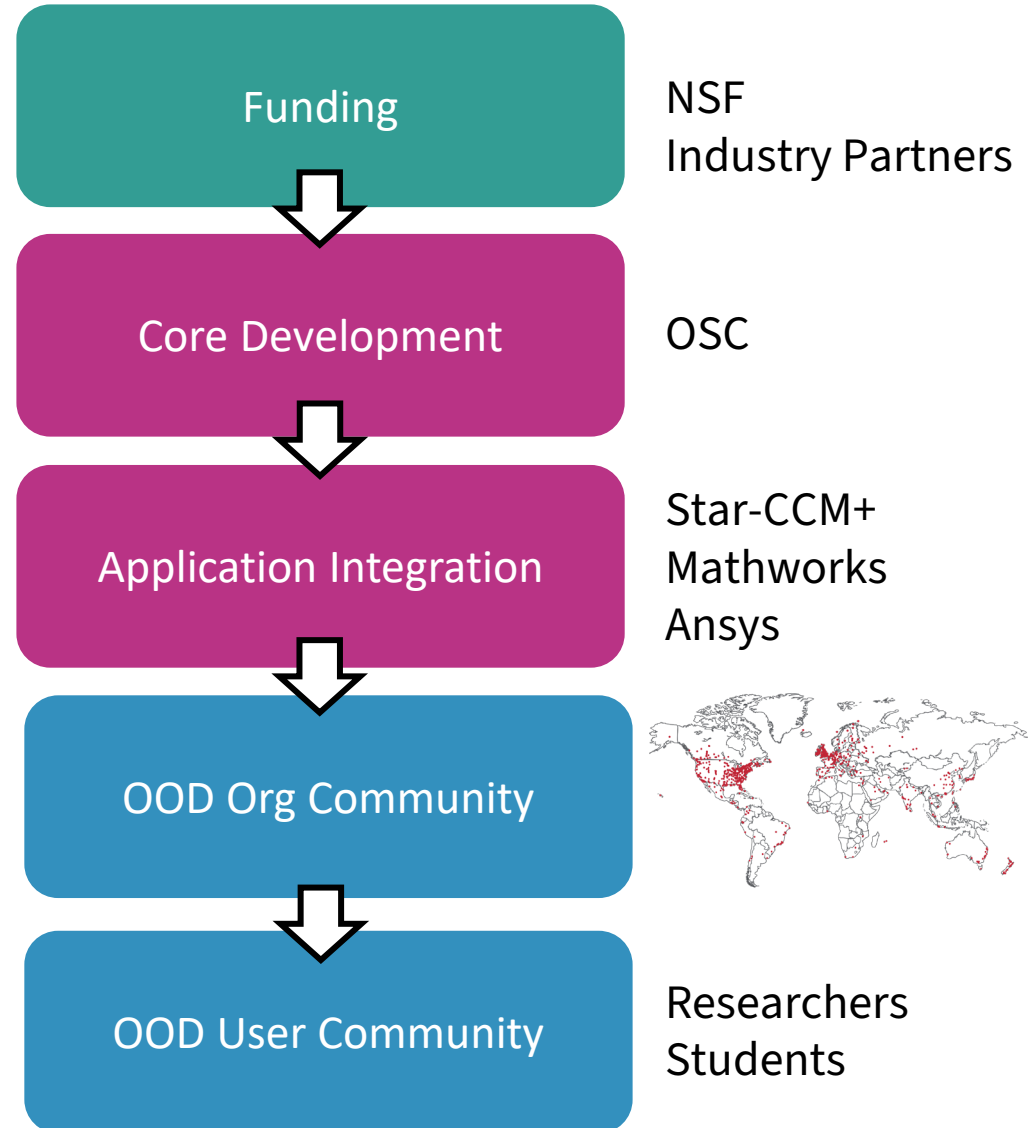

Memberships & Support

Launching in 2025, the pilot membership program is an important part of our sustainability plan.
