Engage with us

The global Open OnDemand community has helped drive significant advancements in the technology and its applications since version 1.0 launched in 2017.

We invite you to engage with us to continue to improve our platform and increase its usability for researchers, faculty, students and industry professionals.

Join the community

openondemand.org/community

- Connect with us at industry conferences such as SC, ISC, PEARC, Gateways and GOOD throughout the year to participate in demonstrations and panel discussions.
- Join an affinity group or committee to discuss and contribute to Open OnDemand's roadmap.

Technical contributions

openondemand.org/contribute

- Write or revise documentation for an app or feature.
- Create or revise code for an app or feature and share it with our community on GitHub.
- Pitch a new app or feature—or report a bug—to improve Open OnDemand via Discourse.
- Make suggestions or ask a question of our development team at our open office hours, the second Tuesday of each month from 11:15 a.m. to 12:45 p.m. ET in the United States.

Share your story

openondemand.org/contact-us

- Participate in a case study that shows how your team or institution has implemented Open OnDemand to benefit your research community.
- Present your Open OnDemand solution on a tips and tricks webinar where community members share best practices.
